

MARRIAGE CANON

I would like to start quoting (if I remember well the sentences) two statements by the General Synod when they said about human love:

- 1) Where is love, there is a sacred expression of God
- 2) Human sexuality does not affect the core of the faith.

Taking these two statements, I would like to express my support to the marriage of the same gender, not only the blessing but the marriage. The church must move ahead and not limit to a blessing as it is already genuine, love between two persons who are creation of God.

My prayers are with the committee who will be involved in this work to update and contextualize the marriage canon in our diocese which I am sure will be a referent for many other dioceses in the provinces of the Anglican Church of Canada.

My prayers are with you.

The Rev'd Canon Maurice Francois.
