

Sept.30/14

I have been raised to believe that people have a free will to do what they please as long as they do so within moral laws. God has allowed us this freedom so we can make our own choices in life. The bible tells us if you have sexual intercourse with a same sex partner you have sinned (Leviticus 18:22). In Genesis, god made man and women, not man and man or women and women.

In the New Testament Paul touches on the act of Homosexuality(Romans 1:26-27).

I believe in the written bible and it is my opinion that to bless same sex marriage is not right. The government of Canada allows it and that is fine since we have free will but it does not make morally right.

I urge you to re frame from putting forth this motion and instead put our energy in getting your people to come to church.

Sincerely,

Paul B. Cote
